

**IN THE CLAIMS:**

Please cancel claims 1 and 2 without prejudice to or disclaimer of the subject matter recited therein.

Please add new claims 3-7 as follows:

**LISTING OF CURRENT CLAIMS**

Claims 1-2. (Canceled)

Claim 3. (New) A safety plug comprising:

- a) a heat-resistant and hardness object;
- b) two pins, each of the two pins having a first end, a second end, and a middle portion, the heat-resistant and hardness object encasing the middle portion of each of the two pins, the first end and the second end protruding outwardly from opposing sides of the heat-resistant and hardness object;
- c) an electrical cord connected to each second end and spaced apart from the heat-resistant and hardness object; and
- d) an outer body covering an exterior surface of the heat-resistant and hardness object, the second end of each of the two pins, and a predetermined portion of the electrical cord,

wherein the outer body includes a flexible tailing wing spaced apart from the heat-resistant and hardness object.

Claim 4. (New) The safety plug according to claim 3, wherein the heat-resistant and hardness object is made of Polybutylene Terephthalate.

Claim 5. (New) The safety plug according to claim 3, wherein the heat-resistant and hardness object is made of a heat-resistant plastic material.

Claim 6. (New) The safety plug according to claim 3, wherein the heat-resistant and hardness object is made of a ceramic material.

Application No. 10/815,814

Claim 7. (New) The safety plug according to claim 3, wherein the outer body is a PVC material.
